Director of Public Works

HIGHWAY SAFETY COMMISSION RECOMMENDATION OF APRIL 2, 2014 VERMONT AVENUE AT 245TH STREET – TRAFFIC SIGNAL

In 2013, Public Works received a request from the Palo Del Amo Woods Homeowners Association to install a traffic signal at the intersection of Vermont Avenue and 245th Street. Public Works performed a traffic engineering study for this intersection and determined this location did not meet traffic signal warrants.

At its meeting on April 2, 2014, the Highway Safety Commission (HSC) heard an appeal from community representatives from the Palo Del Amo Woods Homeowners Association regarding request for a traffic signal at the intersection of Vermont Avenue and 245th Street located in the West Carson area. By a unanimous vote, the HSC made a recommendation to install a traffic signal.

The total project cost for the installation of the traffic signal on Vermont Avenue at 245th Street is estimated to be \$250,000. This work will be financed from the Second Supervisorial District's Road Construction Program.

This item is anticipated to be on the June 10, 2014, Board meeting agenda. Upon your concurrence with the HSC's recommendation, we anticipate the traffic signal would be operational by June 2015.

If you have any questions, please call me or have your staff contact Dean Lehman of our Traffic and Lighting Division at (626) 300-4700.
